Personal Profile

I've always been a creative person, and have always enjoyed immersing myself in new technologies. I studied media production at University, and went on to work in the media/TV industry before moving on to marketing. However, recently I've discovered the world of coding and the endless possibilities it possesses. After initially teaching myself online through various resources, I discovered Just IT, an IT specialist company renowned in training future web developers. Upon further research, and with my previous experience with creative programmes, I knew this was the right career direction and made the commitment by self-funding my place on Just It's intensive full-time Web Development Professional Programme.

Web development allows me to turn my designs into reality. With my background in designing with programmes such as Photoshop, I've found my skills have been tailored towards front-end development, especially when it comes to interactivity and layout design. Just IT has allowed me to hone in on my front-end skills by improving my understanding of HTML, CSS and JavaScript. This has further emphasised my desire to work as a front-end web developer, as currently that's my strong suit.

My main aim is to become a junior front-end developer. I want to continue pushing myself to learn new languages and methods in a working environment. In the foreseeable future, I plan on learning more back-end languages, in order to one day become a full-stack developer. I'm new to back-end, and my time on Just IT has taught me a great deal of complex back-end information, especially in C#. Although it's a lot to take in all at once, I really enjoy all aspects of computer design, and hope to eventually have enough back-end knowledge to merge with my front-end skills, and become full-stack.

Education and IT Training

07/17-Present

**Just IT Training Ltd, London
Development Professional Programme**

- MTA Software Development Fundamentals (Expected 2016)
- MTA HTML5 Web Application Development Fundamentals (Expected 2016)
- MCS5 Programming in HTML5 with JavaScript and CSS3 (Expected 2016)
- MCS5 Developing ASP.NET MVC Web Application (Expected 2016)

09/08-06/11

**Winchester University, Winchester
Media Production
Upper Second Class Bachelors (Hons) Degree (2:1)**

Programmes used:

Adobe Photoshop, Premiere Pro, After Effects, Illustrator, InDesign
Apple Certified Pro on Final Cut Pro

Final Year Project:

"Collision" - A short drama fictional film, which I wrote, produced, directed and edited. - I received a 1st

09/05-06/07

Salesian Sixth Form, Chertsey

A Levels:

Media Studies (A), English Language (B), Drama & Theatre Studies (C)

09/00-06/05

Salesian, Chertsey

GCSE:

10 GCSE's (1 A, 6 B's, 3 C's)
Including Maths (B) and English (B)

IT Skills

Software Development Skills: C#, ASP.NET

- Editing videos for dance songs, and promos, using Adobe Premiere Pro, After Effects and Photoshop.
- Uploading the videos online, mainly to CR2's YouTube page. Also managing their YouTube page.
- Adhering to tight deadlines and making sure the videos met the client's requirements and expectations.

01/12-02/12

**GA Europe, London
Office Assistant**

GA Europe is a hedge fund/investment company in London.

- Organising all the files on the internal servers. This included arranging and updating contacts and files.
- Handling admin tasks such as answering the phone and redirecting calls, printing/faxing relevant paperwork.

11/10-12/11

**Various Film Productions,
Various Roles (inc. Director, Editor, Sound Op & Runner/Driver)**

During my third year at University, and after I graduated, I worked on several short films/productions. This included my own short film for dissertation, which I wrote, produced, directed and edited.

- Directing cast and crew members. Organising everyone and communicating how the scene should be set up, what the shots should be, how the actors should behave/react in every shot.
- Writing scripts and storyboards. Several drafts were written before the final screenplay was complete.
- Organising/booking locations, equipment, and dates for shooting. Also responsible for budget.
- Worked as a Sound Operator on some shoots, using a boom mic and other recording devices.
- Camera assistant; being responsible for maintaining the camera and lenses. Help set up each shot by discussing with the DoP where the camera should be, then set up the tripod or rig accordingly.
- Helping out on set as a runner, so essentially assisting as many crew members as possible with their duties.
- Also worked as a driver by helping transport cast & crew as well as equipment/props to and from set or on-location.

Interests and Achievements

Computing:

In my spare time I enjoy teaching myself new languages and methods on coding sites such as Codecademy, Team Treehouse, Free Code Camp and Pluralsight. I'm subscribed to each of these sites, and also enrolled on an online extensive course with Codecademy.

Hobbies:

I love travelling, discovering the world and new cultures, especially tasting new food. I am passionate about films and TV shows, so will always be looking to watch something new for inspiration. I also enjoy all genres of music, from soundtracks to rock. I love sports, especially football, and enjoy the occasional kickabout. I'm an outgoing person, who enjoys helping and being around others.

Additional Info:

- Full clean UK driving licence. Own car.
- Good understanding of basic German.
